Our Cover

Amateur radio has long had an important role to play in disaster response and emergency communications, as we support served agencies and first responders in situations such as the one shown here. This issue's focus on EmComm takes us to Colorado for a blizzard response and Florida for a look at how Brevard County developed an approach for coordinating the responses of the county's many active clubs. [Chris Zajac, photo. Thanks to Engineer 1 Mark Matson, KC1BLJ, and Lead Electronics Technician Nick Carlone of the Connecticut Telecommunications System Unit.]
